PROFILE

Product-minded full-stack engineer with over six years of React experience and four years building across the MERN stack (MongoDB, Express.js, React and Node.js). Develops intuitive interfaces and REST APIs, takes features from requirements through testing and release, and turns customer feedback into product improvements. Uses JavaScript, TypeScript and Claude Code, with an MSc in Cyber Security informing secure development.

PROFESSIONAL EXPERIENCE

2024-2026 **SpencerZill**
Full-Stack Developer
• Worked across the MERN stack, developing React interfaces, Node.js and Express.js application logic, and MongoDB-backed APIs; used AWS CloudWatch for monitoring.
• Designed and built dashboards, filterable tables and reporting screens, taking features from requirements through implementation, testing and release.
• Integrated REST APIs into React applications and collaborated with backend engineers on data flow between services and the UI.
• Turned recurring user support issues into clearer flows, feedback and error states, helping users complete tasks without support.
• Built reusable React components and shared UI patterns to keep interfaces consistent and improve delivery, usability, reliability and performance.

2023-2024 **Raven (FinTech)**
Frontend Developer
• Built responsive, production React interfaces for financial products and customer-facing flows.
• Collaborated with designers and backend engineers to deliver accessible screens and refine features after release using customer feedback.

2021-2023 **Roqqu (Cryptocurrency Platform)**
Junior Frontend Developer (Contract)
• Developed frontend features for a cryptocurrency platform as part of a FinTech product team.
• Built account, wallet and transaction components, integrating REST APIs and handling loading, empty and error states for financial data.

EDUCATION

Sep 2023 - Jul 2025 **Teesside University** · Middlesbrough, UK
MSc Cyber Security (with Advanced Practice)
Threat modelling, penetration testing, cloud security and architecture, identity and access management, digital forensics and cyber-attack simulations.

Oct 2017 - Nov 2021 **Clifford University** · Abia State, Nigeria
BSc Computer Science

TECHNICAL SKILLS

• **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3.
• **Backend & Data:** Node.js, Express.js, MongoDB (NoSQL), RESTful APIs.
• **Frontend:** React, React Hooks, Next.js, JSX, Redux, Redux Thunk, Sass, CSS-in-JS, Tailwind CSS, GSAP, responsive design, accessibility auditing, performance optimisation.
• **Testing & Delivery:** Jest, E2E testing, CI/CD, build automation, Git, code review.
• **Cloud & Security:** AWS (IAM, Lambda, CloudWatch), secure coding, system design, cloud security, threat modelling.
• **AI Tools:** Claude Code. **Spoken Languages:** English (fluent).
